

Microfiber Cleaning Towels

Microfiber Cleaning Towels complete any cleaning regimen. The generously sized 16 x 16 inch towels provide an ample hand cleaning surface. The cloth is a premium combination of synthetic polyamide fibers in a knit loop construction. The synthetic fibers develop electrostatic properties which enhance dry dusting applications. Using microfiber for cleaning requires less cleaning solution which is better for the environment.

- Suitable for wet or dry use
- Lint free use and laundering
- Bleach should not be used with this product
